'proven protection'

FREEDOM7

PERSONAL PROTECTION FOR WATER SPORTS

Designed for all water users, swimming, spearfishing, snorkelling and the most commonly preferred unit for scuba.

SHARK SHIELD FREEDOM 7 is a compact, versatile and ultra light-weight personal shark deterrent unit which allows you to explore and enjoy the oceans without fear.

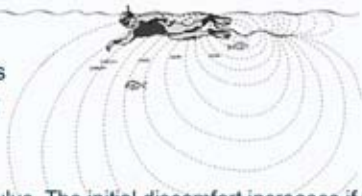

The SHARK SHIELD FREEDOM 7 is fitted to the ankle region (as pictured) with the supplied neoprene pouch. The unit incorporates two tubular stainless steel mesh electrodes contained within a flexible antenna. The resistance through the water of this antenna is virtually unnoticeable. It is these electrodes that emit the protective field. The unique waveform affects only freeswimming sharks and to a minor degree rays and skates. It has no effect on other marine creatures.

The field generated by the SHARK SHIELD is detected by the shark through its sensory receptors known as *Ampullae of Lorenzini*, situated on the snout of all predatory sharks.

The unique and unfamiliar pulsing sensation emitted by the SHARK SHIELD does not replicate that given off by a fish and hence it is not recognized by a shark, as

a desirable or attractive stimulus. The initial discomfort increases if the shark approaches the transmitter until it becomes intolerable. The shark then veers away and leaves the immediate area.

Freedom7 TECHNICAL DATA

Exclusion Zone	Approx 8 metre (26ft) diameter
Maximum Operating Depth	45 Metres (148 Feet)
Operating Temperature	Between 12 ⁰ c - 40 ⁰ c (53.6 ⁰ F - 104 ⁰ F) (Lower Temperatures will reduce the operating time)
Storage Temperature	Between 0 ⁰ c - 60 ⁰ c (32 ⁰ F - 140 ⁰ F)
Weight (Unit Only)	335 grams (11.8 oz)
Dry Weight (Complete)	950 grams (2.09 lb)
In Water Weight (Complete)	69 grams (2.4 oz)
Dimensions of Main Unit (Without Antenna)	80 L x 140 W x 35 H (mm) 3.15" x 5.51" x 1.5"
Unit Operating Time	6 - 7 Hours
Battery Pack Life	Nominal 300 Charges

WARNING:

This product must be operated and maintained in accordance with the Product Information Booklet supplied with the product. Sharks can be dangerous and often unpredictable creatures. While the technology has proven itself since 1985 and extensive testing has been done to develop and manufacture the SHARK SHIELD™, it is impossible to guarantee that all sharks will be deterred under all circumstances.

CTEC Approval : ISO 9002
